DOMAIN : SPORTS

# Introduction

The FIFA World Cup is a global spectacle that captures the hearts of football fans worldwide every four years, showcasing the pinnacle of football competition. Behind the scenes, dedicated analysts work tirelessly to provide accurate data that answers every question from fans, shining a light on the unsung heroes of the sport. This project aims to explore the extensive datasets of FIFA World Cups and World Cup Matches to uncover key metrics and factors that influence a team's success in the tournament. By conducting thorough research and analysis, we will identify critical insights and trends that contribute to winning the prestigious World Cup, ultimately telling the story of the analysts' invaluable contributions to the sport.

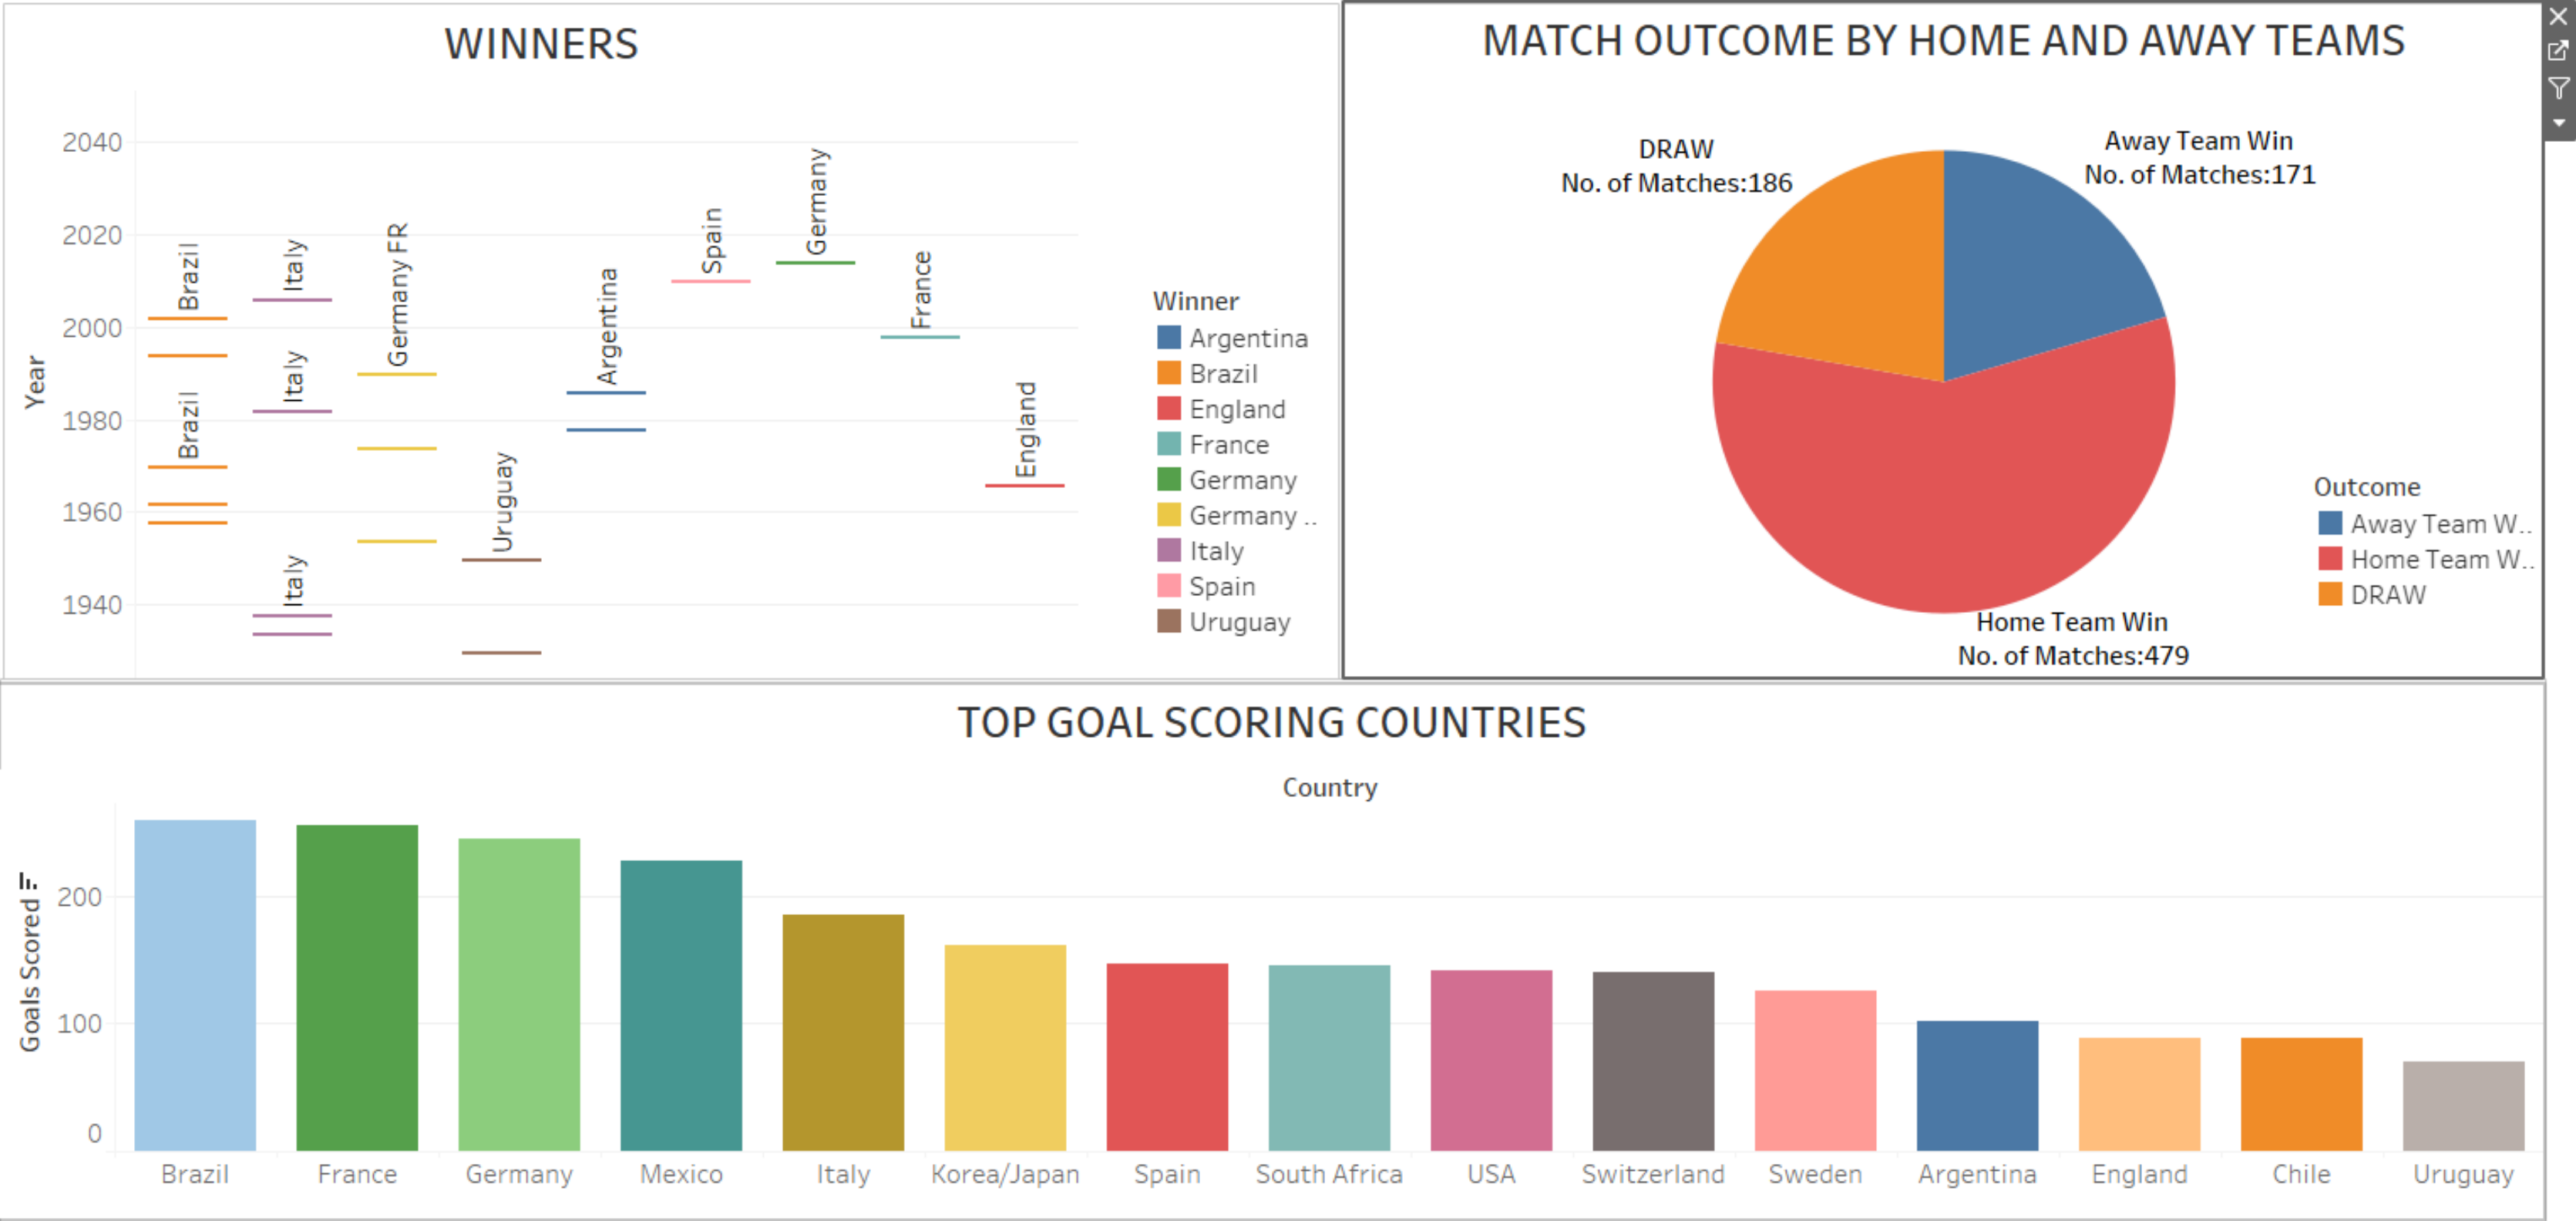

# Main KPI's

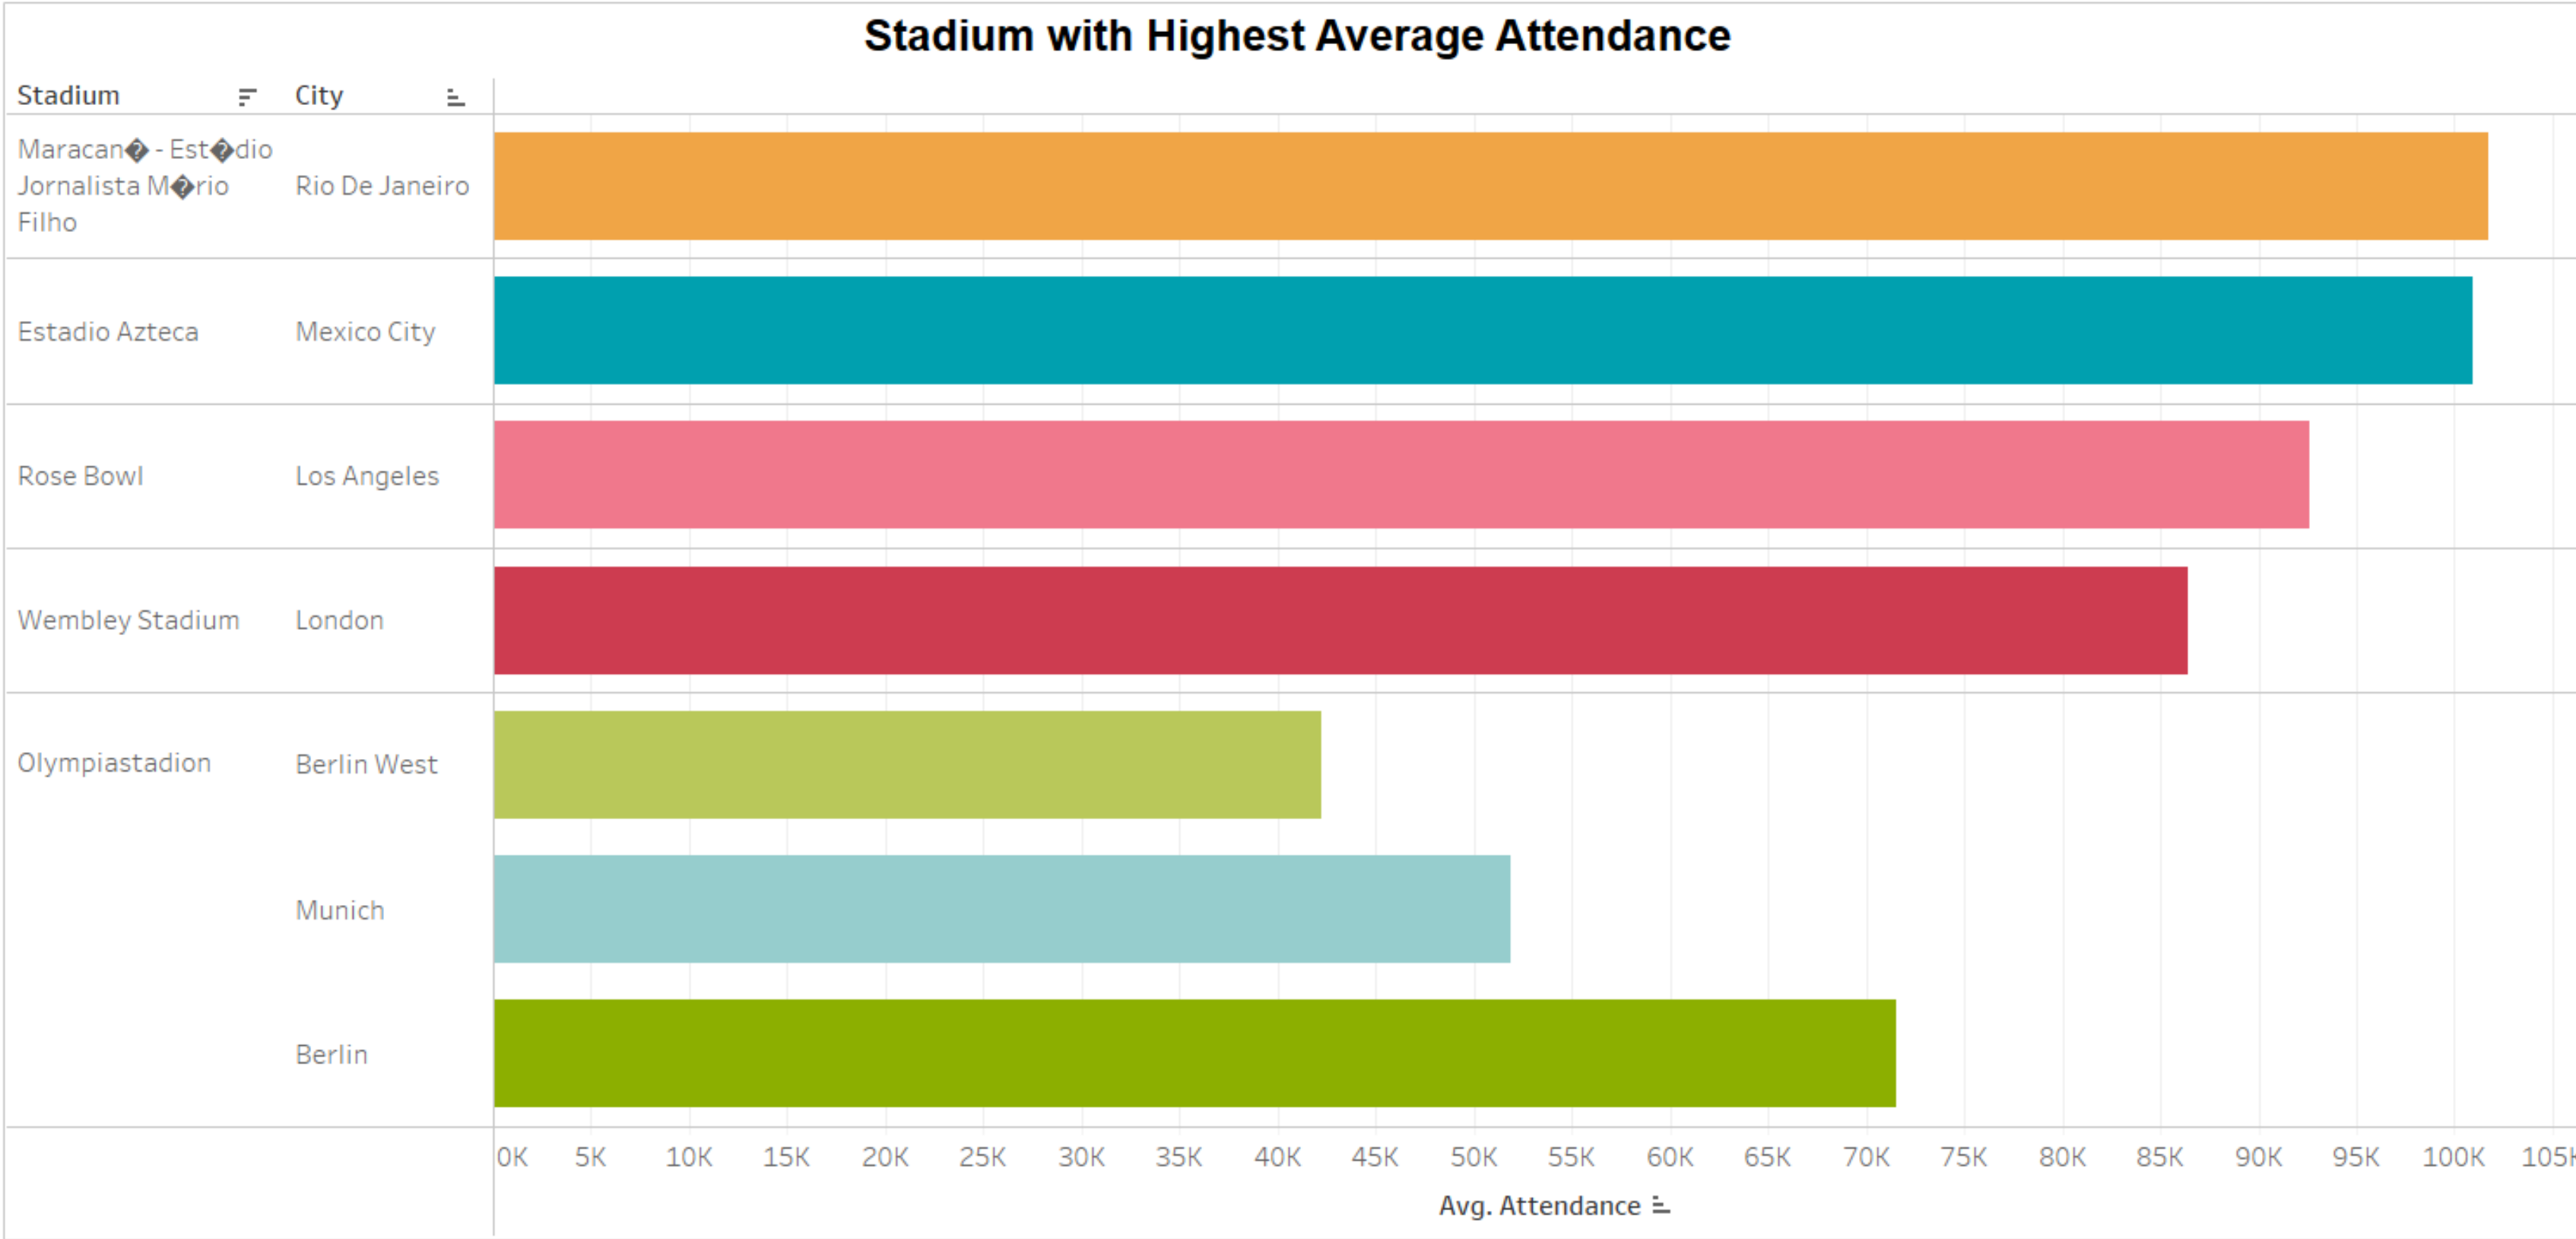

- Winners over the years
- Top Goal scoring countries
- Match outcomes by Home team and away teams
- Stadium with highest average attendance
